

# Hawaii Agricultural Theft and Vandalism

Released: April 24, 2020

In Cooperation with the Hawaii Department of Agriculture  
 Hawaii Field Office · 300 Ala Moana Blvd Suite 7-118 · Honolulu, HI 96850 · (800) 804-9514 · [www.nass.usda.gov](http://www.nass.usda.gov)

## Agriculture Theft and Crime Cost Hawaii Farm Producers \$14.4 million in 2019

The total value of theft and vandalism losses, as well as security costs, from Hawaii farms is estimated at \$14.4 million or 10% of the 2018 Hawaii net farm income of \$142 million estimated by USDA, Economic Research Service. Total theft of farm commodities, materials, equipment, and other property is pegged at \$2.62 million. Statewide vandalism cost to farms in Hawaii totaled \$502 thousand. Total security costs to prevent theft and/or vandalism totaled \$11.2 million.

The survey showed 3,616 incidents of theft, 1,112 incidents of vandalism, and 14,262 trespassing incidents during 2019. Of these, 970 were reported to law enforcement. The number of arrests resulting from the reported incidents is estimated at 79, resulting in 67 people found guilty in a court of law. Survey respondents indicated the elapsed time between report of an incident of theft, vandalism, or trespassing and response from the Enforcement Agency was less than 3 days 95 percent of the time.

Survey respondents compared crime levels during 2019 to 2014. Nineteen percent of respondents perceived an increase in crime level, 68 percent indicated that crime remained the same, and 13 percent thought crime levels had decreased. Respondents were asked about their level of familiarity with the Hawaii Department of Agriculture's efforts to deter agricultural theft by using ownership and movement certificates. Based on survey results, 81 percent were not familiar, 13 percent were familiar, but had not filled out the certificates, and 6 percent were familiar and had completed the certificates.

The results of the survey show that 14 percent of farms in the State suffered theft or vandalism during 2019. Honolulu County suffered the highest rate of theft and/or vandalism at 25 percent of all farms. Hawaii County had the second highest rate at 15 percent. Kauai County was third at 9 percent and Maui had the lowest rate at 7 percent. Hawaii County reported the highest cost attributed to security measures at \$7.78 million, followed by Honolulu at \$1.62 million, Kauai at \$1.03 million, and Maui at \$792 thousand.
