 - (4) Pay a civil fine not to exceed \$500 per day for each day in which the violation persists, in the manner and at the time and place specified in the order.
- (d) The order shall advise the person that the order shall become final thirty days after the person's receipt of the order, unless the director's decision is appealed to the board of appeals within the thirty-day period.
- (e) The provisions of the order issued by the director under this section shall become final thirty days after the receipt of the order, unless the director's action is appealed to the board of appeals as provided in this section.
- (f) Any person adversely affected by any order issued under this section, may within thirty days after the service of the order, appeal the order to the board of appeals as provided by section 6-9.2, County Charter and sections 25-2-20 through 25-2-24. An appeal to the board of appeals shall not stay the provisions of the director's order pending the final decision of the board of appeals.
- (g) The director may institute a civil action in any court of competent jurisdiction for the enforcement of any order issued pursuant to this section. Where the civil action has been instituted to enforce the civil fine imposed by said order, the director need only show that the notice of violation and order were served, that a civil fine was imposed, the amount of the civil fine imposed and that the fine imposed has not been paid.
- (h) Annually, on September 1, the director shall file with the bureau of conveyances, liens on all properties which have been the subject of fines levied under this section, which remain unpaid for one year or more after final adjudication and the expiration of the time for any further appeal.
- (i) Fines, assessed under this section shall constitute a lien upon the subject property upon the filing of said lien with the bureau of conveyances. This lien shall be considered for purposes of authority, to be the equivalent liens which arise pursuant to the provisions of chapter 19 of this Code.

Division 4. Amendments.**Section 25-2-40. When zoning code may be amended.**

This chapter may be amended by changing the boundaries of districts or by changing any other provision in this chapter whenever the public necessity and convenience and the general welfare require such amendment, and when such amendment would be consistent with the goals, policies and standards of the general plan.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-41. Who initiates amendment.

An amendment may be submitted by the council, the director, the owner of the property, or any other person with the property owner's authorized consent.

Section 25-2-42. Amendments initiated by property owners and other persons.

- (a) An application for a change of zoning district by a property owner, or any other person with the property owner's consent, shall be on a form prescribed by the director and shall be accompanied by:
- (1) A filing and processing fee of \$500 plus \$25 per lot or unit proposed by the amendment.
 - (2) A description of the property in sufficient detail to determine its precise location.
 - (3) A plot plan of the property, drawn to scale with all existing and proposed structures shown thereon, and any other information necessary to a proper determination relative to the specific request.
 - (4) A list of the names, addresses and tax map key numbers for those owners and lessees of record of surrounding properties who are required to receive notice under section 25-2-4.
 - (5) A County environmental report. A County environmental report shall not be required for any amendment where either an environmental impact statement or an environmental assessment and negative declaration have been prepared and issued in compliance with chapter 343, Hawai'i Revised Statutes, as amended.
 - (6) Any other plans or information required by rules adopted by the director in accordance with chapter 91, Hawai'i Revised Statutes.
- (b) The applicant shall serve notice of the application for zoning amendment on surrounding owners and lessees of record as provided by section 25-2-4. The applicant shall also post a sign for public notification on the property as provided by section 25-2-12.

- (c) In considering an amendment initiated by a property owner or other person which proposes to change the district classification of any property, the director shall consider the purposes of the existing and proposed district and the purposes of this chapter and shall recommend a change in a district boundary only where it would result in a more appropriate land use pattern that will further the public necessity and convenience and the general welfare, and be consistent with the goals, policies and standards of the general plan.
- (1) The director shall recommend either the approval or denial of the proposed amendment to the commission subject to conditions which would further the intent of this chapter and the general plan and other related ordinances.
 - (2) The director shall make the recommendation within one hundred twenty days after an application has been accepted by the director.
 - (3) If the director fails to make a recommendation on the proposed amendment within the one-hundred-twenty-day period, the application shall be forwarded to the commission without any recommendation from the director, and the director's failure to act shall be considered a favorable recommendation on the application.

The commission shall recommend approval in whole or in part, with or without modifications, or rejection of such application. In the event that the commission fails to act on the application within the ninety-day period, the application shall be considered an unfavorable recommendation by the commission, and the application shall be transmitted through the mayor to the council with such recommendation.

(1996, ord 96-160, sec 2; ratified April 6, 1999; am 2005, ord 05-136, sec 3; am 2012, ord 12-90, sec 1.)

Section 25-2-43. Amendments initiated by the council and director.

- (a) Any amendment initiated by the director shall be reviewed by the commission.
 - (1) The amendment shall be submitted to the commission with the director's justification and recommendation on the amendment.
 - (2) Upon receipt of a proposed amendment from the director, the commission shall hold at least one public hearing. Notice of the hearing by the publication shall be provided by the commission in accordance with section 25-2-5, except that when a proposed amendment involves a specific parcel of land, notice shall be provided by the commission in accordance with subsections (c) and (d).
 - (3) Within sixty days after receipt of the amendment from the director, the commission shall transmit the proposed amendment together with its recommendations thereon through the mayor to the council. The commission shall recommend approval in whole or in part, with or without modifications, or rejection of such amendment. - (b) The council shall refer any proposed council-initiated amendment to this chapter to the director and the commission with requests for their respective comments and recommendations thereon, prior to the first reading of any such amendment. The director and the commission shall each submit comments and recommendations on the proposed amendment to the council within one hundred twenty days from the date that the amendment is transmitted by the council to the director and the commission.
 - (1) The director shall submit comments and any recommendations to both the commission and the council within the one-hundred-twenty-day review period.
 - (2) The commission shall hold at least one public hearing on the proposed amendment. Notice of the hearing by publication shall be provided by the commission in accordance with section 25-2-5, except that when a proposed amendment involves a specific parcel of land, notice shall be provided by the commission in accordance with subsections (c) and (d).
 - (3) The commission shall transmit the amendment together with its recommendations thereon through the mayor to the council. The commission shall recommend approval in whole or in part, with or without modifications, or rejection of such amendment. In the event that the commission fails to act on the amendment within the one-hundred-twenty-day review period, such inaction shall be considered as an unfavorable recommendation by the commission.
 - (4) After the one-hundred-twenty-day review period has expired, the council may proceed to act on the proposed amendment as it deems appropriate.

- (c) Notice by mail to surrounding owners and lessees of record of properties within the boundaries established by section 25-2-4, shall not be required for any amendment initiated by the council or the director. In lieu of mailing written notice to surrounding property owners and lessees of record, the director shall publish notice of the commission's public hearing in at least two newspapers of general circulation in the County, once a week for three consecutive weeks, with the last notice to be at least ten days prior to the hearing. The notice shall specify the time, date and place of the hearing, its purpose and a description of any property which may be involved.

- (1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-44. Conditions on change of zone.

- (a) Within any ordinance for a change of zone, the council may impose conditions on the applicant's use of the property subject to the change of zone provided that the council finds that the conditions are:
 - (1) Necessary to prevent circumstances which may be adverse to the public health, safety and welfare; or
 - (2) Reasonably conceived to fulfill needs directly emanating from the land use proposed with respect to:
 - (A) Protection of the public from the potentially deleterious effects of the proposed use, or
 - (B) Fulfillment of the need for public service demands created by the proposed use.
- (b) Requests to change or alter the conditions of any change of zone ordinance shall be processed in the same manner as a zone change, unless the council authorizes the changes or alterations to be made by the director.
- (c) A condition granting an administrative time extension by the director shall not be included in any change of zone ordinance. However, an initial time extension for the performance of conditions within a change of zone ordinance may be granted by the council via resolution upon a finding that the following circumstances exist:
 - (1) The non-performance is the result of conditions that could not have been foreseen or are beyond the control of the applicant and that are not the result of the applicant's fault or negligence;
 - (2) Granting of the time extension would not be contrary to the general plan or this chapter;
 - (3) Granting of the time extension would not be contrary to the original reasons for the granting of the change of zone;
 - (4) The time extension granted shall be for a period not to exceed the period originally granted for performance (i.e., a condition to be performed within one year may be extended for up to one additional year); and

- (5) The request for the time extension is submitted to the director prior to the expiration of time for the performance of conditions included in the original change of zone ordinance.

When a request for initial time extension is received by the director, the director shall recommend approval or denial and submit a notice to council through the mayor. In the case of a recommended approval, the director shall also submit a resolution to council through the mayor for consideration and action.

If an applicant should require an additional time extension beyond the time extension provided via council resolution, the request shall be processed pursuant to section 25-2-42.

- (d) A request for any time extension, change, or alteration of conditions shall be submitted in writing to the director, in lieu of the application required for an applicant-initiated change of zone. Requests for initial time extensions shall be forwarded to the council for its consideration. All requests, excluding requests for initial time extensions via council resolution, shall be accompanied by a filing fee of \$500.
- (e) If the applicant fails to fulfill any conditions of the zone change within the specified time limitations, the director or council may initiate the process for enactment of an ordinance reverting the affected property back to its original zoning designation or a more appropriate zoning designation in accordance with section 25-2-43.

(1996, ord 96-160, sec 2; ratified April 6, 1999; am 2023, ord 23-38, sec 1.)

Section 25-2-45. Nonsignificant zoning changes.

- (a) The director may administratively grant any nonsignificant zoning change. A nonsignificant zoning change must comply with the designations for the property set forth in the general plan and any development plan adopted by ordinance, and not result in an increase or decrease in any zoning designation affecting more than five percent of the area, or one acre, of any lot, whichever is less.
- (b) The applicant for a nonsignificant zoning change shall give notice to surrounding owners and lessees of record, pursuant to section 25-2-4, and shall post a sign for public notification as provided by section 25-2-12.

(1996, ord 96-160, sec 2; ratified April 6, 1999; am 2008, ord 08-48, sec 2.)

HAWAII COUNTY CODE

This page intentionally left blank.

Section 25-2-46. Concurrency requirements.

- (a) Purpose. In addition to requirements otherwise imposed, this section creates concurrency standards for roads, water supply, and civil defense sirens.
- (b) Applicability. This section applies to any zoning amendment application, or for an application for extension of time to perform a condition of zoning amendment received by the planning department after the effective date of this ordinance.
- (c) Definitions. As used in this section:

“Acceptable level of service” means that the level of service of a transportation facility at the a.m. and p.m. peak hour is “D” or better.

“Approved development” means development for which zoning has been granted by the County.

“Civil Defense siren” means a noisemaking mechanical or electronic device, generating sound to provide warning of approaching danger. The siren is one type of tsunami warning system and is linked to the Hawai'i State Civil Defense Outdoor Siren Warning System, activated by the County's civil defense system or by neighboring tsunami warning centers, in case of a potential life-threatening tsunami or other natural disaster.

“Critical road area” means a geographical area where any of the transportation facilities serving the area have been determined by the council to be worse than the acceptable level of service.

“Immediate vicinity of a project” means the area in which transportation facilities will be required to mitigate impacts caused primarily by the project.

“Level of service, or LOS” means a qualitative measure describing operational conditions within a traffic stream, and shall be determined using the procedures in the latest edition of the Highway Capacity Manual, Transportation Research Board.

“Mitigation” means specific actions to reduce traffic congestion. Mitigation is of two types: “local mitigation” which consists of improvements to roads and intersections that are in the immediate vicinity of a project, including channelization of intersections, turn lanes into a project and similar improvements. “Area mitigation” consists of improvements which increase the capacity of an arterial or other major road, such as additional lanes, in the general region containing the project, or construction of a new arterial or collector road in the general area containing the project, or improvements to public transportation such as buses or park and ride facilities, sufficient to offset the traffic demand generated by the project.

“Occupancy” means (1) the issuance of a certificate of occupancy for a commercial, multifamily, industrial building, hotel or other structure requiring a certificate of occupancy; (2) the issuance of a building permit for residential buildings that do not require a certificate of occupancy; or (3) final subdivision approval for subdivisions where dwellings are allowed, but dwellings are not being constructed before sale of any lot.

“Project area” means the area in which the project is expected to have an impact on the level of service of transportation facilities.

“Reasonable assumptions” means the percentage of full build-out that is expected to occur during the twenty-year period after the date of the application, as determined by the planning director.

“Transportation facilities” means State and County highways, roads, and public transportation facilities.

“Worse than the acceptable level of service” means that the level of service at the a.m. or p.m. peak is “E” or “F”.

(d) Traffic impact analysis report required.

- (1) A traffic impact analysis report (TIAR), prepared or updated within six months before the submission of the application, shall be included with the application for any zoning amendment that can generate fifty or more peak hour trips. The determination of peak hour trips shall be based on the Institute of Transportation Engineers, “Trip Generation Handbook”, or any other nationally recognized source. When the number of trips depends upon the exact future uses of the site, and those are unknown at the time of zoning amendment (for example, the types of commercial uses), the determination shall be based upon a typical mix of uses found in that zoning type in the community. The TIAR shall be certified as having been conducted in accordance with best practices by a professional engineer licensed in the State of Hawai‘i.
- (2) The TIAR shall assess impacts to transportation facilities in the immediate vicinity and general area of the project, and to the transportation facilities serving the project area.
- (3) The TIAR shall include projections for future growth in traffic, for a minimum of five, ten, and twenty years, and shall include other approved or proposed development that is expected to impact the project area, with reasonable assumptions about the build-out of such development.
- (4) The TIAR shall present an assessment of the impacts of the project on LOS and an evaluation of alternative plans for mitigating those impacts. The evaluation shall include budgetary cost estimates for the capital and operating costs of promising alternative plans.

- (e) Mitigation required.
 - (1) If the LOS for any transportation facility in the project area is (A) currently worse than the acceptable level of service, or (B) projected to become worse than the acceptable level of service during the five year period of the TIAR, any rezoning of the property, if approved, shall contain conditions that require mitigation of adverse traffic effects before occupancy of the project is permitted, or that occupancy be delayed until the level of service has reached the acceptable level and is no longer projected to be worse than the acceptable level.
 - (2) Where the LOS deficiency is due to roadway or intersection deficiencies in the immediate vicinity of the project, the conditions of zoning shall require local mitigation. Where the deficiency in LOS is due to insufficient capacity in the transportation facilities serving the project area, the conditions of zoning shall require area mitigation.
 - (3) If there is more than one way to mitigate an adverse effect, the director shall present to the council the pros and cons of the alternatives.
- (f) Mitigation requirements will be deemed satisfied when:
 - (1) A public agency has committed funds for area mitigation that will remove the LOS deficiency. In the case of the State, commitment of funds means that the governor has released funds to complete the improvement. In the case of the County, commitment of funds means that the council has appropriated funds to complete the improvement; or
 - (2) The private developer's commitment to implement mitigation has been secured by bond or equivalent security, or mandatory participation in an improvement district, community facilities district, or other equivalent means of guaranteeing performance.
- (g) A developer's area mitigation expenses shall be credited against any fair share or similar fee requirement for roads. A developer's local mitigation expenses shall be credited against any fair share or similar fee requirement for roads if the council determines that the mitigation substantially benefits the general public and was not necessary primarily for the benefit of the project. In general, roads that are necessary for access to or within a development or turn lanes for a private project shall not qualify for fair share credit.
- (h) The following types of zoning amendment applications shall be required to submit a TIAR when required by this section, but shall not be required to perform area mitigation:
 - (1) Residential or other zoning amendment where the applicant commits, and the conditions of zoning require, that the project earn at least two times the number of affordable housing credits otherwise required under chapter 11, County affordable housing policy, provided further that the applicant shall be entitled to the full amount of "excess credits" under section 11-15, County affordable housing policy, based on the number of affordable housing credits normally required.

- (2) Zoning amendment to CV, CN, MCX, PD, or ML where the council determines that the project will reduce regional traffic congestion by providing necessary commercial or light industrial opportunities to serve an area where there is a shortage of available space zoned for such uses, and substantial residential development has already been approved, provided that conditions of zoning shall ensure that any commercial development be of a scale consistent with the standards of a “neighborhood center” as described in the general plan.
- (i) The restrictions on occupancy shall not apply to the construction of infrastructure such as water tanks, roads, sewage treatment plants, or other project elements that do not generate substantial traffic.
- (j) The council may designate critical road areas by ordinance.
- (k) In a critical road area, all rezonings shall be subject to local and area mitigation, except as stated in subsection (h).
- (l) In order to determine whether a zoning amendment application meets the TIAR threshold of fifty or more peak hour trips, and to prevent applicants from going below the TIAR threshold by dividing a project into segments, the director shall review all development proposed on the same or adjacent properties, and shall include traffic that may be generated by any development application approved after the effective date of this ordinance, or by any other pending development application, if it is on a portion of the same lot or tax map key parcel, or an adjoining lot or tax map key parcel, or in the immediate vicinity of the development.
- (m) A zoning amendment application shall not be granted unless: (1) the department of water supply has determined that it can meet the water requirements of the project and issue water commitments using its existing system; or (2) specific improvements to the existing public water system, or a private water system equivalent to the requirements of the department of water supply will be provided to meet the water needs of the project and conditions of zoning delay occupancy until the necessary improvements are actually constructed.
- (n) To facilitate the development of village centers in rural areas that are not currently served by a public water system, the council may waive the water supply requirements for zoning amendments for commercial or light industrial uses in areas that do not currently have a public water system, and where the department of water supply has no plans to build a public water system, and which are (1) designated as an “urban and rural center” or “industrial area” on table 14-5 of the general plan and (2) designated for urban use on the land use pattern allocation guide map of the general plan; provided that conditions of zoning shall require water supply consistent with public health and safety needs such as sanitation and fire-fighting.

- (o) A zoning amendment application or an application for an extension of time to perform a condition of zoning amendment shall not be granted for projects proposing:
- (1) Twenty-five or more residential units; or
 - (2) Commercial space, industrial space, or a combination of commercial and industrial space equal to or greater than thirty thousand square feet of gross floor area; or
 - (3) Any combination of residential units, commercial space and industrial space equal to or greater than thirty-five thousand square feet of gross floor area; unless existing civil defense sirens, as determined by the State Civil Defense, are available to provide adequate warning coverage across the entire project site or that the provision of civil defense sirens to provide such coverage is integrated as part of the zoning amendment or application for extension of time to perform a condition of zoning amendment.
- (p) Nothing in this section shall limit the ability of the council to impose reasonable roadway, water, or civil defense siren improvement requirements on zoning amendments or to deny zoning amendment applications to the extent otherwise allowed by law.
- (2007, ord 07-99, sec 2; am 2011, ord 11-71, sec 1.)

Division 5. Variances.

Section 25-2-50. Variances permitted.

Variances from the provisions of this chapter may be granted; provided that a variance shall not allow the introduction of a use not otherwise permitted within the district; and provided further that a variance shall not primarily effectuate relief from applicable density limitations.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-51. Grounds for variance.

A variance may only be granted if the following is found:

- (a) There are special or unusual circumstances applying to the subject real property which exist either to a degree which deprives the owner or applicant of substantial property rights that would otherwise be available, or to a degree which obviously interferes with the best use or manner of development of that property; and
- (b) There are no other reasonable alternatives that would resolve the difficulty; and
- (c) The variance is consistent with the general purpose of the district, the intent and purpose of this chapter, and the general plan, and will not be materially detrimental to the public welfare or cause substantial, adverse impact to an area's character or to adjoining properties.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-52. Application for variance; requirements.

Application for a variance shall be on a form prescribed for this purpose by the director and shall be accompanied by:

- (1) A filing fee of \$250;
- (2) A description of the property in sufficient detail to determine the precise location of the property involved;
- (3) A plot plan of the property, drawn to scale, with all existing and proposed structures shown thereon;
- (4) A list of the names and addresses of all surrounding owners and lessees of record of property interests in property within the boundaries established by section 25-2-4; and
- (5) Any other plans or information required by rules adopted by the director in accordance with chapter 91, Hawai'i Revised Statutes.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-53. Notice of action on variance application.

- (a) Upon acceptance of a variance application, the director shall fix a date for the director's action on the application. Within ten days after receiving notice of such date, the applicant shall serve notice of the application on surrounding owners and lessees of record, as provided by section 25-2-4. The applicant shall also serve notice on owners and lessees of record of interests in other properties which the director may find to be directly affected by the variance sought. Except for setback variances, the applicant shall also post a sign for public notification on the property as provided by section 25-2-12.
- (b) The director shall publish notice of the date of the proposed decision by the director and the date by which written comments must be received by the director in at least two newspapers of general circulation in the County, at least ten days prior to the date of the director's proposed decision.

(1996, ord 96-160, sec 2; ratified April 6, 1999; am 2005, ord 05-136, sec 4.)

Section 25-2-54. Actions by director on variance.

- (a) The director shall, within sixty days after acceptance of a variance application, deny the application or approve it subject to conditions.
- (b) The conditions imposed by the director shall bear a reasonable relationship to the variance granted. All actions shall contain a statement of the factual findings supporting the decision.
- (c) If the director fails to act within the prescribed period, the application shall be considered as having been denied, and the director shall immediately inform the applicant of such denial.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-55. Repealed.

(1996, ord 96-160, sec 2; ratified April 6, 1999; rep 1999, ord 99-112, sec 5.)

Section 25-2-56. Repealed.

(1996, ord 96-160, sec 2; ratified April 6, 1999; rep 1999, ord 99-112, sec 7.)

(1996, ord 96-160, sec 2; ratified April 6, 1999; rep 1999, ord 99-112, sec 8.)

Section 25-2-58. Appeals.

- (a) If the director denies a variance application, such decision is final except, that, within thirty days after the date of the written decision, the applicant may appeal such action to the board of appeals, pursuant to the rules of practice and procedure of the board of appeals.
 - (b) Any person aggrieved by the decision of the director in the issuance of a variance decision may appeal the director's action to the board of appeals, in accordance with this chapter, within thirty days after the date of the director's written decision.
- (1999, ord 99-112, sec 6.)

Division 6. Use Permits.**Section 25-2-60. Purpose.**

Use permits are permits for certain permitted uses in zoning districts which require special attention to insure that the uses will neither unduly burden public agencies to provide public services nor cause substantial adverse impacts upon the surrounding community.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-2-61. Applicability; use permit required.

The project district (PD) development is intended to provide for a flexible and creative planning approach rather than specific land use designations, for quality developments. It will also allow for flexibility in location of specific uses and mixes of structural alternatives. The planning approach would establish a continuity in land uses and designs while providing for a comprehensive network of infrastructural facilities and systems. A variety of uses as well as open space, parks, and other project uses are intended to be in accord with each individual project district objective. A project district is an amendment to this chapter which changes the district boundaries in accordance with the individual project district.

In addition, a project district may only be established if the proposed district:

- (1) Is consistent with the intent and purpose of this chapter and the County general plan; and

- (b) In addition to the conditions described in subsection (a), the council shall include the following conditions in any project district ordinance:

Division 5. Agricultural Project Districts (APD).**Section 25-6-50. Purpose and applicability.**

The agricultural project district (APD) development is intended to provide a flexible and creative planning approach for developments within the agricultural zoning districts, in lieu of specific land use designations. It will allow for flexibility in the location of specific types of agricultural uses and variations in lot sizes. Under this planning approach, opportunities will be provided for a mix of small scale agricultural activities and associated residential uses, as well as larger agricultural projects. This district will also provide a vehicle to satisfy the demand for a rural lifestyle on marginal agricultural land, while decreasing the pressure to develop important agricultural land for this purpose. The planning approach would establish a continuity in land uses and designs, while providing for the needed infrastructural facilities and systems to support the various types of agricultural developments. An agricultural project district is an amendment to this chapter which changes the district boundaries in accordance with the individual agricultural project district.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-6-51. Criteria for establishing a project district.

An agricultural project district may be established as an amendment to this chapter whenever the public necessity and convenience and the general welfare require that a comprehensive planning approach for an agricultural area should be adopted in order to establish a continuity in land uses while providing the required infrastructural facilities and systems. In addition, an agricultural project district may only be established if the proposed district:

- (1) Is consistent with the intent and purpose of this chapter and the County general plan; and
- (2) Will not result in a substantial adverse impact upon the surrounding area, community or region.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-6-52. Minimum land area required.

The minimum land area required for an agricultural project district shall be five acres.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-6-53. Permitted uses; overall density.

Any uses permitted either directly or conditionally in the A or IA districts shall be permitted in an agricultural project district, and the overall density permitted in an agricultural project district shall not be greater than one acre per building site. Each of the proposed uses and the overall densities for dwelling uses shall be contained in a master conceptual plan for the agricultural project district and in the agricultural project district enabling ordinance.

(1996, ord 96-160, sec 2; ratified April 6, 1999.)

Section 25-6-54. Application for agricultural project district; requirements.

Division 6. Scenic Corridor Program.**Section 25-6-60. Purpose and applicability.**

In the County of Hawai'i, there are certain segments of public roads, or portions thereof, that expose traveling residents and visitors to notable and/or unique resources. As established by the national and/or state scenic byways program, the identification of these portions of public roads as scenic corridors is intended to provide for the enhancement of important scenic, historic, recreational, cultural and/or natural resources accessed from such a transportation corridor. This planning approach establishes the opportunity for continuity and/or enhancement of land uses and designs for natural, cultural, historic, recreational and/or scenic resources located along a transportation corridor and provides a diversity of regulatory and non-regulatory tools and techniques to apply to a variety of circumstances for a corridor identified by ordinance as a scenic corridor in the County of Hawai'i.

The Hawai'i County council may, by ordinance, establish all or portions of public roadways and an appropriate portion of the adjacent property as a scenic corridor. Within such an area, all permitted uses defined by the underlying zoning classification will remain in place unless otherwise specified by the scenic corridor enabling ordinance. Any standards and conditions not included in the underlying zoning related, but not limited, to signage, lighting, design standards, access management, landscaping, parking, height, historic and cultural preservation, view planes, and/or setbacks must be included as part of the scenic corridor management plan and adopted by scenic corridor enabling ordinance by the County council. The scenic corridor management plan must demonstrate the need for the adoption of special standards and conditions in order to preserve, maintain, protect, or enhance the intrinsic character of the corridor consistent with the purposes of this chapter.
(2007, ord 07-36, sec 1.)

Section 25-6-61. Criteria for establishing a scenic corridor.

A scenic corridor may be adopted as an amendment to this chapter whenever the public necessity, convenience, general welfare, and/or the public trust require that a comprehensive planning approach for a transportation corridor be adopted in order to establish continuity in land uses while providing the required infrastructural facilities and systems. A scenic corridor may only be established if the proposed district meets the following criteria:

- (1) Is consistent with the intent and purpose of this chapter and the County general plan.
- (2) Will not result in a substantial adverse impact upon the surrounding area, community and/or region.
- (3) Will enhance Hawai'i County's significant natural, visual, recreation, historic and/or cultural qualities.
- (4) Will protect and enhance the attractiveness of Hawai'i County to make it a better place to live, work, visit, and/or play.
- (5) Will improve Hawai'i County's economic vitality by enhancing and protecting our unique natural, scenic, historic, cultural, and/or recreational resources.
- (6) Is located on a major or minor arterial highway, or collector road.
- (7) Significantly possesses at least one of the following intrinsic qualities:
 - (A) Scenic;
 - (B) Natural;
 - (C) Historic;
 - (D) Cultural;
 - (E) Archaeological;
 - (F) Recreational; or
 - (G) Demonstrates local, private, and public support and participation.

(2007, ord 07-36, sec 1.)

Section 25-6-62. Permitted uses.

Within a scenic corridor all zoning code regulations applicable to the zoning district or districts in question remain in effect unless differing regulations are contained within the corridor management plan as adopted by ordinance, in which case the corridor management plan shall apply.

(2007, ord 07-36, sec 1.)

Section 25-6-63. Initiation of a scenic corridor; requirements.

- (a) The director or council by resolution must initiate the establishment of a scenic corridor. The resolution must demonstrate that the proposed scenic corridor meets the requirements of 25-6-61. The resolution must include:
 - (1) A description and general location of the proposed corridor.
 - (2) The length of the section of road to be included in the scenic corridor.
 - (3) A description of the corridor's intrinsic quality or qualities.
 - (4) A list of names, addresses and tax map key numbers for those property owners and lessees of record of lots within three hundred feet of the public road being proposed to be designated as a scenic corridor.
 - (5) Any other plans or information required by rules adopted by the director in accordance with chapter 91 of the Hawai'i Revised Statutes.
- (b) Within thirty days of the adoption by the council of the resolution, the director shall serve notice of the proposed scenic corridor upon all owners and lessees of lots, and utility companies with easements and/or other property rights, whose properties are either (1) within the proposed scenic corridor, or (2) within three hundred feet of the boundaries of the proposed scenic corridor. The notice shall give a general description of the scenic corridor and describe the opportunity for public comment.
- (c) Corridor management plan.

Within twenty-four months after the adoption of the resolution, the director shall complete a corridor management plan and enabling ordinance, which will be forwarded to the commission for its recommendation to the Hawai'i County council. A scenic corridor management plan is a written document that assesses the intrinsic qualities of the corridor and specifies actions, procedures, controls, and administrative as well as community strategies that will be pursued to maintain those qualities. Special conditions and standards developed for an individual scenic corridor shall be included as part of the enabling ordinance. Elements of the corridor management plan will include:

 - (1) Vision and goals statement.
 - (2) A map identifying scenic corridor boundaries and the location of intrinsic qualities and different land uses within the scenic corridor.
 - (3) An assessment of such intrinsic qualities and their context.
 - (4) An assessment of needs and expectations.
 - (5) An assessment of anticipated transportation, economic, environmental, and social impacts.
 - (6) Strategies for economic development and marketing of the scenic corridor.
 - (7) Strategies for maintaining and enhancing the corridor's intrinsic qualities.

- (8) Strategies for community participation.
 - (9) Identification of organizations, agencies and individuals to be consulted in the planning process.
 - (10) Identification of regulatory and non-regulatory tools recommended that could aid in the implementation of the scenic corridor management plan. The evaluation and selection of tools needed to protect and/or enhance the corridor should be based on the following criteria:
 - (A) The ability to insure that new development is consistent with the conditions and standards established for the scenic corridor, while maintaining the property owner's rights to reasonable use of the property;
 - (B) The ability to provide the appropriate degree of development and aesthetic control needed to preserve and enhance quality of the corridor; and
 - (C) The ability to provide flexible, diverse, and suitable regulatory and non-regulatory tools and techniques to a variety of circumstances.
 - (11) Specific time schedules for plan implementation.
 - (12) Standards for building design, signage, and roadway elements. In the case where the transportation corridor has not been built, the corridor management plan may include special design standards for the corridor development.
 - (13) Methods for interpreting and protecting significant resources.
 - (14) Identification of potential funding sources.
 - (15) Provisions for termination of the corridor management plan if it is not implemented.
- (d) The director shall forward the corridor management plan and a proposed scenic corridor enabling ordinance to the commission together with the director's recommendation on the proposed scenic corridor. The purpose of the scenic corridor enabling ordinance is to establish the scenic corridor as well as any conditions and/or standards recommended by the corridor management plan that may differ from those within the underlying zoning. Any conditions and/or standards that differ from the underlying zoning must be defined through the use of a table that illustrates how standards and/or conditions in the enabling ordinance differ from those within the underlying zoning.
- (e) The commission shall review the scenic corridor enabling ordinance and the corridor management plan and forward its recommendation to the council through the mayor for the council's consideration and action.
- (1) In reviewing the corridor management plan, the commission shall hold at least one public hearing in the council district in which the proposed scenic corridor is located.

- (2) Within ten days after receiving notice of the date of the public hearing, the director shall serve notice of the public hearing on owners, and lessees of record, and utility companies with easements or other property interests, whose properties are within the proposed scenic corridor, or within three hundred feet of the boundaries of the proposed scenic corridor. The notice shall otherwise conform to section 25-2-4(c) and (d).
- (3) Within one hundred twenty days after receipt of the corridor management plan from the director, the commission shall transmit the proposed scenic corridor ordinance and corridor management plan together with its recommendation thereon through the mayor to the council. If no recommendation is made within one hundred twenty days, the scenic corridor management plan and enabling ordinance shall be forwarded to the council with no recommendation.

(2007, ord 07-36, sec 1; am 2009, ord 09-118, secs 18 and 19.)

- (b) The council may designate, by resolution, an official corridor advocacy group for a scenic corridor, or proposed scenic corridor.
- (c) The council may delegate the preparation of the corridor management plan to the officially-designated corridor advocacy group. In that case, the corridor advocacy group shall provide the notices required under section 25-6-63(b) and prepare a corridor management plan conforming to section 25-6-63(c). The director shall prepare an enabling ordinance and the procedure shall thereafter follow section 25-6-63(d) and (e).

 - (1) Necessary to prevent circumstances which may be adverse to public health, safety and welfare,
 - (2) Reasonably conceived to fulfill needs directly emanating from the land uses proposed with respect to protection of the public from the deleterious effects of the proposed uses, or fulfillment of the need for the public service demands created by the proposed uses and
 - (3) Necessary to protect, preserve, and enhance the environmental, historic, cultural, scenic, archaeological, and/or recreational resources and intrinsic qualities identified within the scenic corridor.
- (b) In addition to the conditions in subsection (a), the council shall include conditions and standards as part of the proposed scenic corridor enabling ordinance needed to implement the intent of the corridor management plan.

Further, the PVD district seeks to preserve the historical architectural theme that has come to symbolize Pāhoa's unique sense of place and identity, through the implementation of design guidelines within the PVD district.
- (b) The PVD district, as used in this chapter, means the area delineated on the map as provided in the Pāhoa Village Design Guidelines (hereinafter "design guidelines") and further described as:

Section 25-7-41. Design guidelines; intent; adoption; applicability.

- (a) The intent of the Pāhoa Village Design Guidelines (hereinafter “design guidelines”) is to articulate primary architectural features and building design characteristics that have historically been identified as the Hawai‘i plantation architectural style or theme.
- (b) Design guidelines may be adopted by resolution or as standards by ordinance and shall be administered by the director after giving due consideration to the recommendations of the Pāhoa design review committee having been established in accordance with section 25-2-72 of this chapter.
- (c) While no specific minimum number of the architectural features in the design guidelines shall be required for any proposed project, all buildings and structures within the PVD district, except as otherwise specified in section 25-7-42(d) below, shall be designed to be consistent with the design guidelines and to be complementary with the existing structures.

(2015, ord 15-44, sec 4.)

Section 25-7-42. Pāhoa design review committee; purpose; procedures.

- (a) The purpose of the Pāhoa design review committee (hereinafter “committee”) is to provide an opportunity for local review and comment, for consistency with the design guidelines, on plans for all new buildings and structures as well as alterations to the exterior of existing buildings and structures within the PVD district.
- (b) Upon request from the director, the Puna Community Development Plan Action Committee (PCDP AC) shall identify and recommend one or more appropriate Pāhoa based community organizations that will be responsible for establishing the committee and providing any necessary administrative support that may be required. Committee membership should reflect a broad cross section of the Pāhoa regional town center service area and, to the extent reasonably possible, shall include representation from the construction industry, local businesses, and architecture and design professionals.
- (c) The director shall provide the committee with an opportunity to conduct an architectural and design review, for consistency with the design guidelines, of all applications for plan approval, P.U.D. or sign permit, except as provided for in subsection (d) below.
 - (1) The committee shall complete its review of any application for plan approval and submit its written recommendations along with the reviewed plans stamped “Reviewed by” with the date and signature of the committee chair to the director within twenty-five calendar days of receipt of such application from the director.

 - (4) Committee recommendations to the director shall be consistent with the provisions of the County Charter, general plan, Puna community development plan, Pāhoa Village Design Guidelines, zoning and other related ordinances and any master plan adopted for the PVD district.
- (d) The director may waive the requirement for architectural and design review by the committee when the proposed improvements will clearly have little or no visual impact on the preservation or promotion of the Hawai'i plantation architectural theme, including, but not limited to:
- (1) The construction or installation of accessory buildings or structures or minor alterations to the exterior of any existing building or structure that is not visible from any street frontage of the building site;
 - (2) The addition or replacement of accessory features such as flag poles, roof gutters and downspouts, railings and fencing of similar size, style and material or that more closely conforms to the design guidelines;
 - (3) Painting or repainting of the exterior of any building, structure or accessory feature that is consistent with the design guidelines; or
 - (4) The replacement of existing doors and windows where the size of the replacement door or window is within ten percent of the size of the original door or window.
- (e) In order to assist applicants with designing projects that satisfactorily conform to the design guidelines, the committee shall also develop a process for and be available to provide preliminary review of conceptual plans prior to formal submittal of detailed plans and an application for a building permit, plan approval, P.U.D. or sign permit.
- (f) The committee shall conduct a comprehensive review of the design guidelines and PVD district boundaries and submit its recommendations for amendments to the design guidelines and PVD district boundaries to the PCDP AC within ten years following adoption of the design guidelines, and every ten years thereafter. The committee may prepare and submit to the PCDP AC recommendations for interim amendments to the design guidelines and PVD district boundaries as it deems necessary.
